Wee are a small adoption agency dedicated to rescuing guinea pigs, rats, hamsters, and other small exotic mammals from shelters, places of abandonment, and from persons relinquishing their pets. Whenever possible, we offer a safe house to these animals, irrespective of age, temperament, or health status. These animals will receive veterinary care and socialization in the hopes that they will be placed in a "forever" home. Animals given Sanctuary Status will be placed in our Foster Care Network to live out their lives in comfort and with love. We are also focused on educating foster parents, school children and others on the care, feeding and prevention of unwanted litters of these animals.

Our specialty is small furry exotics including, guinea pigs, rats, hamsters, mice and rabbits. Wee Companions has been rescuing small animals since 1998. In 2016, we served more animals in need than any previous year, taking in 1227 animals. This is quite a feat when you realize that we are a volunteer-based organization that is operated out of individual homes. Our funding comes from the generosity of supporters like you, we receive no government monies.

Adoptions by appointment. Schedule an appointment with us today! [Make reservation here.](#)

Our animals are cared for in private foster homes, they do NOT live at our store. Please contact us several days prior to Adoptions to ensure we can bring an appropriate selection of animals with us.

Thank you for your generous support. We could not do this without your help!

Heartwarming happenings

We love hearing happy news from our adopters, volunteers and even our animals!

[Share your heartwarming happening story](#)

Sharon

We received this wonderful update from Raphael's adopter: He is fun and feisty and we are enjoying him immensely. I can't imagine our family without him! Thank you!

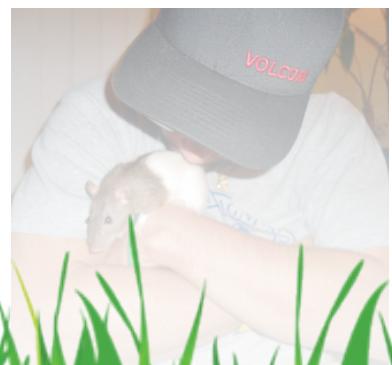

gingernut37

"Hey! Just wanted to let you know how Gingerbread and Nutmeg have been doing! Nutmeg has gotten very used to her new home (she loves hiding under clothes or hay) , and Gingerbread has definitely warmed up to her. They love cucumber, by the way."

chris

The girls are settling in very nicely. We used some large pieces of cardboard and the original pen to construct a version of "the Great Wall" for a play area. My boys had a prolonged discussion, but have settled on the names "Firefly" and "Serenity". Firefly is the one that gives kisses. She sat on K's lap and boggled when he pet her. The girls are using a little fleece bed as their preferred sleeping space, but are slowly building a paper towel lair to stash their lab blocks. Such funny things !

kyle

Skittles, Stanella and Snowflake were looking for a forever home where they would be loved and cherished, no matter their personality quirks. Stanella had a tumor removed and was spayed. Her very outgoing personality and affectionate demeanor made her new daddy fall in love with her right away. Fortunately, their daddy didn't take too long to find a forever home for them.
